

Tork Premium Wet Wipe Hand Cleaning Handy Bucket (Blue Lid)

artikel: 190592

systeem: W14 - Handy emmer

Lagen: 1

Kleur: Wit

Print: nee

Reliëf:

Rolbreedte: 13.5 cm

Rollengte: 15.7 m

Aantal vellen: 58

Vellengte: 27 cm

Roldiameter: 12.5 cm

producteigenschappen

- Voor het reinigen van de handen
- Vochtige werkdook
- Verwijdert vuil en vet eenvoudig
- In handig draagbare emmer

milieu

Content

Viscose Polyester, Aqueous emulsion (lotion)

Material

Viscose Viscose fibre is produced from cellulose pulp. Cellulose is dissolved in alkaline solution by a chemical reaction with carbondisulphide and then spun to fibres in an acid spinning bath. The fibres are washed, dried and cut to intended fibrelength. Polyester Polyester fibre is produced from terephthalic acid and ethyleneglycol, which react through condensation to polyester resin. The molten resin is spun to fibres through spinnerettes and cooled with air. Fibres are then cut to intended fibrelength. Aqueous emulsion (lotion)The product contains an unscented aqueous

emulsion further containing emulsifiers, emollients, moisturisers and preservatives. The ingredients are biodegradable and classified as not being dangerous to the environment.

Date of issue 2008-03-27 Art. no. 190592

Revision date

Production

This product is produced for SCA in China. The production site is BRC accredited.

Destruction

Disposal considerations When delivered, the product is not regarded as hazardous waste, as defined within EU directive 91/689/EEC, and may be disposed with normal household waste.
